

Working Student (m/f/d) - Mechanical Engineer

Together with you, we at LatAI are on a mission to combine state of the art technologies in Software electronics and hardware to transform our and our customers' ideas from prototypes into impactful products.

From multilevel PCB design to the development of AI-powered web applications, a deep dive into the newest tiny machine learning algorithms or building and scaling our very own E-commerce shops, we try to master everything. And if we're not there yet we are on our way.

At latAI you will find a young, fast-paced and interdisciplinary team that offers space to grow and a diverse set of opportunities!

Your purpose:

We developed a cool new game for indoor theme parks, fairs and promo events and now it's time to get from the prototype to the real deal!

So you will:

- Be creative and design a modular mounting platform concept,
- See how it can be combined with the electronics together with our electrical engineers
- Build it yourself in our office's workshop (CNC mill, 3D printer, welding machine... is already here),
- Evaluate your concept and learn from mistakes,
- Plan its production and sourcing and finally,
- Fasten your seatbelt and take off with us on the new journey we just created.

What you bring with you:

- Skills with your preferred CAD software,
- Knowledge in structural engineering and materials,
- A wide portfolio of cool DIY projects,
- A creative mind and hands-on approach to problems,
- Based in Munich

Why latAI:

- We value a culture of ownership. You can expect to be given significant responsibilities over your project starting from day 1.
- Personal development is very important to us, we accompany you on your way to improve your soft skills, expand your tech stack and grow new opportunities.
- We let you choose our next company and team events such as hackathons, ski trips, or dinner events.
- At LatAI, we value a proper work-life balance, you'll benefit from our Urban Sports Club membership, free drinks and healthy snacks.
- In our innovation lab, we empower you to realize your own DIY projects!

If this sparked your interest, contact us, we would love to get to know you!

At LatAI, we embrace and celebrate diversity and strive to create an inclusive environment for all employees.

Will you join us on our journey?
